EDUCATIONAL ACHIEVEMENT UNIT/LEARNING RESULTS UNIT

Name of Field/ Qualification	**82 – 41 – M/02 Photography and New Media**	**Level EQF**	**4**

Name of Unit of Learning Outcomes/Outcomes of Learning *Explanatory Notes:* *Learning outcome/outcome of learning = a complex part of the qualification comprising of a set of learning outcomes, each being "acquirable" and assessable on its own*	**Animal** **Task:** Create a set of 10 photos of animals (dog, cat, sheep) **Goal:** Create a set of 10 photos of different animals, with the possibility to independently decide whether it will be artistic images on the border of abstraction or whether it will be a documentary set. **Implementation schedule:** 1. Assignment of the exercise – clarification of the intention 2. Explanation of the procedure 3. Selection of suitable technique 4. Realization – photography 5. Post-production 6. Submission of digital outputs (USB, saving to disk). Evaluation.
Anticipated duration of execution:	• 30 lessons (3-5 days) – theoretical preparation, practice and verification of acquired knowledge, skills and competences *Explanations: The suggested number of hours and days is only indicative, the timetable can be adapted to the current needs of the students and the possibilities of the school.*

ŠKOLA
MICHÆL

Expected results / learning/education achievements are divided into:		
Knowledge *(Knowledge acquired in the course of education, learning or experience, acquired and comprehended information (facts, theories, procedures, etc.), general or professional (factual).)*	**Skills** *(The motor/intellectual ability of an individual to apply knowledge, materials, means and tools in practice (e.g. when performing a certain specific activity.)*	**Competences / level of independence and responsibility and social skills** *(Such mental/sensory/motor qualities/characteristics of an individual as are a necessary prerequisite for the use of acquired knowledge and skills for the good performance of the required activity in a certain environment (work, study, personal) and under certain circumstances, e.g. interaction with people.) https://www.narodnikvalifikace.cz*
Learner is aware of: • Technical capabilities of the camera used • Camera settings • Work with different focal lenghts, different exposure times • Photo editing features of Photoshop	**Learner is able to:** • Search for opportunities to photograph animals • Set the appropriate exposure • Pays sufficient attention to preparation – chooses the appropriate technique for the selected animal • Use the Bridge browser to select the best quality shots Edit images in Adobe Photoshop and Camera Raw	**Learner is characterised by managing:** • Working with the camera – choice of technique, settings • Principles of safety when working in nature • Choose the most suitable time for a quality shot • Correctly describe the individual shots, add relevant metadata and systematically archive them • Complete work in post-production • Organizing and planning work • Independence • Communication skills • Technical literacy • Information literacy *Explanatory notes: Level of achievement:* *E - elementary* *I – intermediate* *H – high*

Expected results of the learning/education – knowledge, skills, competences/level of independence and responsibility:
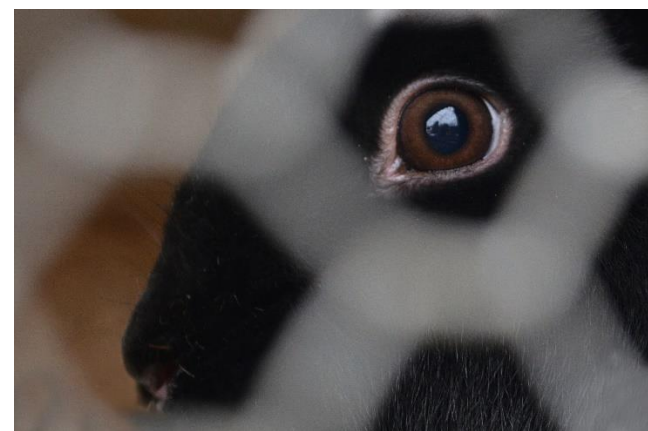

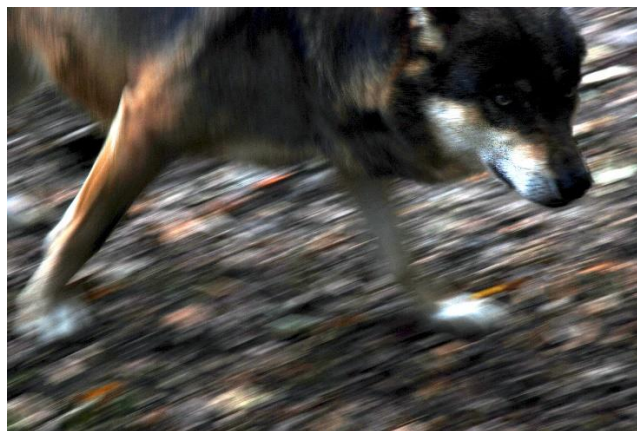

Mobility participant:

- Finds or creates a suitable opportunity to photograph an animal
- Uses optimal lenses
- Sets the appropriate exposure
- Uses a photo viewer
- Works in Adobe photoshop

Verification of unit learning outcomes/outcomes of learning:

Presentation of the set of photographs, defense. Oral verification.

Showing of the correctly accomplished: result/output of the learning/education unit
